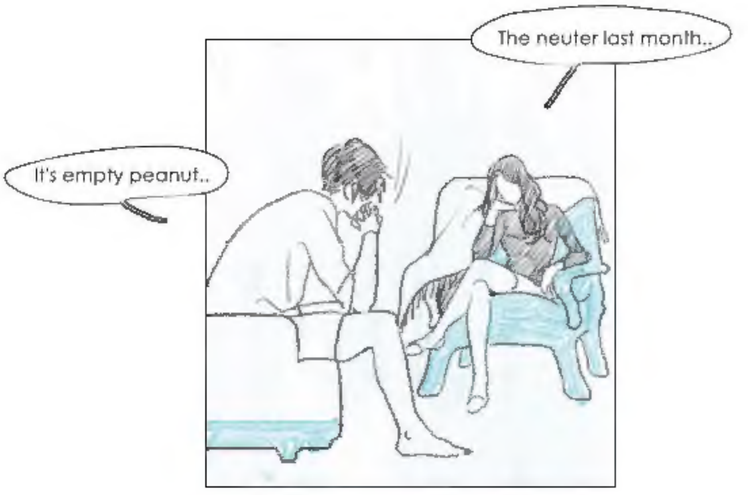
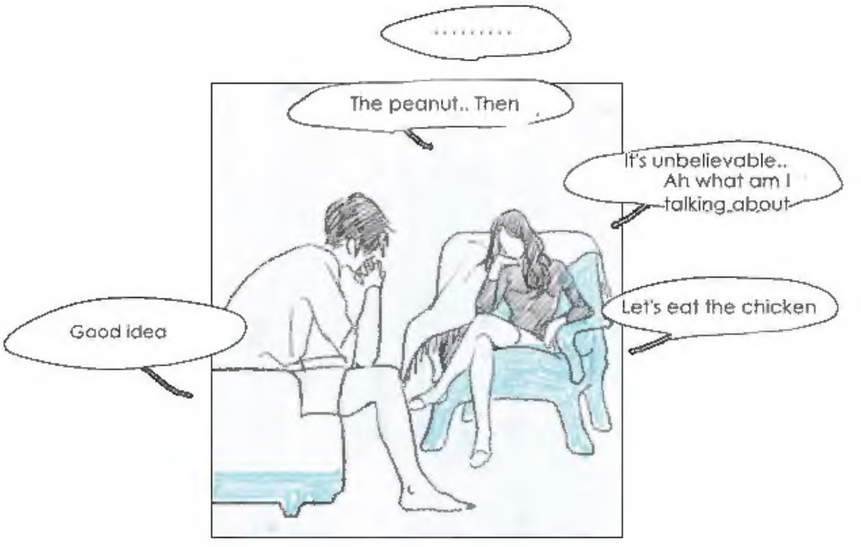
You mean
Suddenly there's kid when you woke up
and your cat is missing
So you think that kid who looks like Ran is Ran?
It's like that to put it briefly
I assume you've got the grounds
Of course

And most of all,

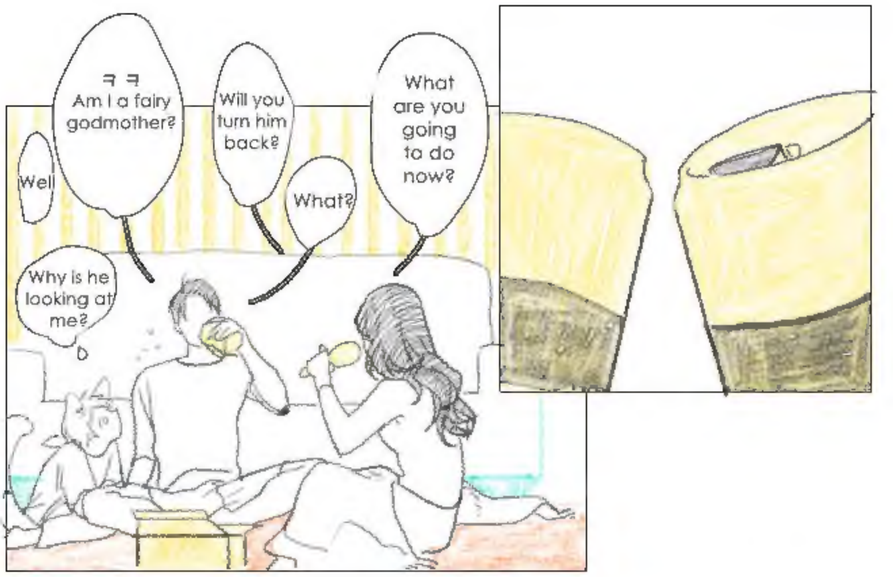
ㅇㅡ...
...?



The neuter last month..
It's empty peanut..

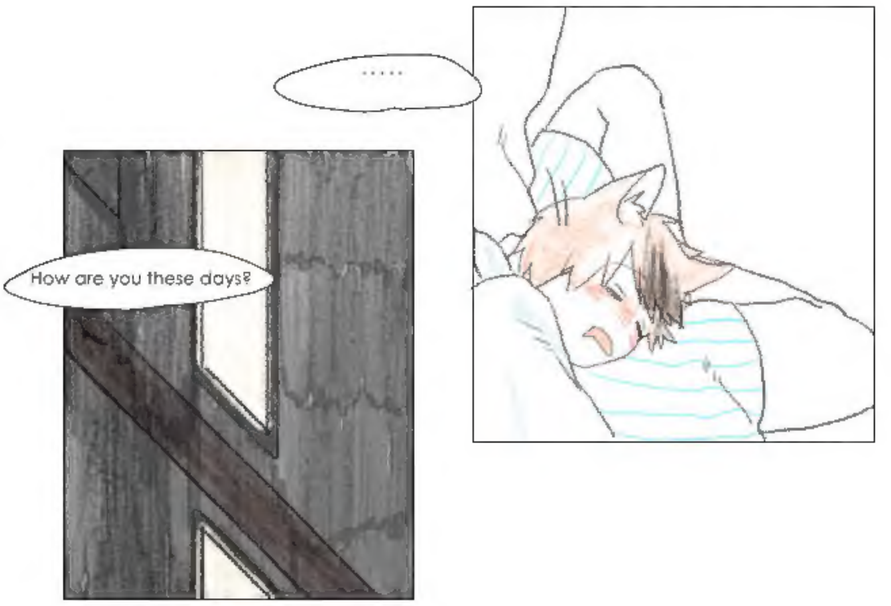


.....
The peanut.. Then
It's unbelievable.. Ah what am I talking about
Let's eat the chicken
Good idea



ㅋㅋ Am I a fairy godmother?
Will you turn him back?
What are you going to do now?
Well
What?
Why is he looking at me?

Does he know to speak?
No, the vocal cord of a cat is not suitable
for human speech
Anyway cat's crying
sounds like it's impersonating human..



.....
How are you these days?

Me? Well
Work, house, man~
Haha. Still?
I'm not considering marriage yet
It's not because you can't do it? ㅋㅋ
What ㅋㅋ
By the way, can you please answer the contact from school?

Huh..? Since I become famous, they make a big deal with just a thesis
They will ask you to come to special lecture for the graduates on Christmas
You're their senior

There's nothing bad with going...
What have they done to me to give the spotlight like this?
It was a little ridiculous!

But you have to enjoy when you can
What will you get if you hate them?
You can use them as much as you want too

Stop talking about opportunistic
I won't go
You know what little Kang,
If you don't take advantage of others to live, others will take advantage of you

You already know about life even before you get married
Is that why you don't want to have a relationship?
A beauty like me is good when we're solo

Anyway
We have to live like this in this world..
Otherwise

..You cannot keep your precious things..

They said they won't publish your work if you don't come..

Right..Maybe..

You are serious, right?

Do I have to go?

Like a wind

I'm forced to live in cold air

Those who cannot become snow

Who throws the stone?

In this beautiful land

Why are we transitive?

You're thinking of cigarette again, right?

When you think of cigarette

You'll think of me

Look at this

Now you can't smoke, right?
